A network of gender equality champions driving dialogue, action and positive change.
ABOUT THE NETWORK

The 30 for 2030 initiative will put young people central to solution building, policy-making and sustainable change. The network will support young representatives to develop innovative gender equality solutions and engage with a broader range of stakeholders. Members will provide expertise on youth and gender issues, design innovative solutions and campaigns, encourage the mobilization of young people and facilitate the dissemination of information to networks and organizations around the region.

For more information, click here.
ROLE OF THE NETWORK

- INSPIRE
- MOBILIZE
- CONNECT
- TRANSFORM
MEET THE MEMBERS

2024-2025 cohort
Aisha Lareb Memon | 24, Pakistan

Aisha Lareb is a doctor by profession, writer, and woman right activist. As the founder of Conversation For Change, she leads initiatives aimed at promoting Sexual and Reproductive Health and Rights (SRHR) in her community. Aisha's dedication to breaking taboos and providing essential resources has positively impacted thousands of lives. She is recipient of 50 Leading Light, and Young Emerging Leaders Award. She believes that women possess the right to express their sexual identity without fear, shame, or jeopardizing their reproductive health.

Coco | 17, China / Thailand

Coco is a student, as well as a human and animal welfare activist. To her, being a well-rounded global-citizen, who is always trying to make the world a better place, is the way to advance our society. She is the founder of Food Bank & Local Communities, the first circulating food bank chain in Chiang Mai, Thailand. Her work not only raises awareness on poverty and zero hunger but also advocates for youth education. She co-founded BarrierMUN, a nonprofit dedicated to raising the voice of Thai students and introducing them to the English language in diplomatic relations. Furthermore, she is on the youth leadership board for many animal charities. Recently, she has become an avid education activist from her personal family experience when she was forced to move away from her school in Chiang Mai.

Through her professional and social work, she is dedicated to promoting inclusion, diversity, and positive impact.
RIDHIMA PANDEY | 14, INDIA

Ridhima is a 14-year-old Climate Activist based in Uttarakhand, India. She started her activism after witnessing the kedarnath flash flood that occurred in her home state in 2013. She remembers visuals of people crying because they had lost their family members and kids crying because they had lost their parents and homes. After struggling for months, she decided to do something to stop the flash floods and that’s how she learned about global warming and climate change. She found climate change interesting, wanted to expand her knowledge, and gradually found out about the exploitation of the environment and biodiversity that was destroying her future.

PRIYAL KENI | 28, INDIA

As an ex-international rifle shooter, founder of a non-profit and Generation Equality ally, Priyal has deep-rooted passion for social change. Some of her contributions include co-authoring a toolkit on ending Online Gender Based violence for making the internet a safer space for women and girls and participating in the Gen-Forum consultations on Women Peace and Security. As a TEDx speaker and thought leader, she advocates for poverty eradication, education access, social equality, and bridging the gender gap.
MARINEL UBALDO | 25, PHILIPPINES

Marinel is currently undertaking a Masters in Environmental Management at Duke University. She has served as the Philippines Country Coordinator for UN COY16 Glasgow while co-leading the implementation of the Local Conference of Youth 2021. Marinel has been active in educating communities, especially the youth and children about climate change and the roles they can take to adapt and mitigate to its effects. She spoke to world leaders on behalf of Filipinos in international climate conferences. She is a petitioner of the National Inquiry on Climate Change. Her global campaign with Amnesty International calling on the Philippines Government to ensure relocation of Super-Typhoon Haiyan survivors generated 528,070 actions around the world.

PHATTEeya (GRACE) YONGSANGUANCHAI | 17, THAILAND

Grace, a junior at the Thai-Chinese International School, is a strong advocate for youth empowerment and climate action. She was selected as a Thai Red Cross Youth representative in the Southeast Asia Youth Network and a Thai delegate to the United Nation’s Youth4Climate event. She advocates for climate action by presenting to ASEAN ministers, ambassadors, the Parliament, and the public. Grace is the founder of PeACEbyYouths, a youth network advocating against violence and conflict in Thai society. She values dedication & hard work and believes that youth can bring transformative change.
Angel Zhao is a first-generation Asian-American Harvard student hailing from Houston, Texas. She is a sophomore studying economics with a secondary in environmental science public policy. Though she is currently on a gap year, she previously served as her school’s Undergraduate Council Executive Cabinet and researched the intersections between gender representation and peacebuilding under a UN SDG Advocate. She also serves as a team lead on the Harvard College Consulting Group’s plant-based meat substitute case, the Council of Student Sustainability Leaders, the Presidential Committee on Sustainability Scope 3 Emissions Group, and the student-faculty Dining Services Council. Additionally, Angel Zhao was an ambassador on the USA Debate Development Team and hopes to centre marginalized voices through a career in international public service. Angel Zhao has represented youth at the US Institute of Peace Conference, the Rotary World Peace Conference, the ECOSOC Youth Conference, the World Food Programme Presentations, and the Conference of Youth (UKCOY16) prior to COP26.
