Datasets

Supreme Court of Vanuatu – Included data for the Magistrates Court and Island Courts of Vanuatu. The dataset dates back to 2001 and had been “cleansed” in preparation for migration to the new CMS case management system to be implemented in January 2016. The 2015 data was incomplete at the time of writing and has therefore been omitted from the analysis.

Magistrates Court of Vanuatu – This additional dataset contained specific data about family protection order cases in the Port Vila, Santo and Tanna Magistrates Courts from 2008 to 2015 (2015 was incomplete). Some of the fields within this dataset were not migrated into the new CMS case management system and were therefore not available in the “cleansed” Supreme Court dataset noted above.

Vanuatu National Statistics Office (VNSO) – For all national statistics, this report relied upon the 2009 National Census.

Vanuatu Police Unit (CRIMS) – This dataset was obtained from the Criminal Information Management Systems (CRIMS) Unit in Vanuatu. The dataset dates back to 2009. The 2015 data is incomplete and has therefore been omitted from the analysis.

Vanuatu Office of the Public Prosecutor – This dataset dates back to 2003. As the 2015 data was incomplete it was omitted from the analysis.

Vanuatu Department of the State Prosecutor (DSP) – This dataset only contains data from Port Vila between 2012 and 2015. Other islands either rely on manual record keeping or maintain a separate database which is not integrated into the Port Vila (DSP) system. The 2015 data was incomplete and was omitted from the analysis.
